

Gave direct command in to Github Copilot
navigate to "https://leaf taps.com/opentaps/control/main"
enter username "democrs2"
enter password "crmsfa"

Used feature file.txt

Scenario: Login with valid credentials
Given I navigate to "https://leaf taps.com/opentaps/control/main"
When I enter username "democrs2"
And I enter password "crmsfa"
And I submit the login form
Then I should be logged in successfully
